## ANNOUNCEMENT

**T**O BREEDERS AND ADMIRERS OF THE RED, WHITE and Roan: In presenting to you this Catalog of our Fifth Annual Short-Horn Sale we feel we are offering a bunch of Short-Horns that, individuality and breeding considered, will compare favorably with the best of the present day offerings.

We have been breeding Short-Horns for fifteen years and the business has been a great pleasure as well as very profitable to us. Our great success in improving our herd has been through the use of the good bulls we have used at the head of our herd, and feel confident that there are young bulls in this offering that will work such improvement in other herds.

The female offering is strong, consisting of some of our very best Scotch heavy milking cows, and the heifers are from heavy milking dams. Several calves at foot are sired by Hopeful Cumberland 392004 and a great number bred to him. (See Lot B in Catalog).

Remember that this is a great opportunity to secure the blood of the great Cumberland's Last. The sensational Cumberland's Type is a grandson of Cumberland's Last. There are sixteen grandsons and granddaughters in this offering and they are the Cumberland type.

We extend a cordial invitation to every one interested in good cattle to attend the sale, trusting they will find the offering worthy of their time and attention. Sincerely,

JOSEPH MILLER & SONS.

## *Terms and Conditions of Sale*

WARRANTY.—Every animal guaranteed a breeder, with the exception of young heifers that have not been bred. In the case of cows sold with calf at foot, or showing to be in calf, evidence of breeding is present and no further guarantee is given. Cows lately bred, and bulls that do not prove breeders after six months' trial, will be taken back and tried six months by us, provided they are returned in as good condition as when sold, and if they do not prove breeders another of equal merit will be given in exchange. All expense of shipments to be borne by the purchaser.

PEDIGREES.—A Certificate of Registry in the American Short-Horn Herd Book will be furnished for every animal, with the exception of young calves sold with dam, and there will be furnished for these a pedigree in the application form ready for registry.

TERMS—Cash. Or approved note bearing 6 per cent interest. Any one not personally known to us, wanting time, should bring late bank reference. All stock will be loaded on the cars after sale without trouble to the purchaser, but will be at buyer's risk as soon as bid off.

BIDS.—Parties unable to attend the sale may send mail or telegraphic bids to either of the auctioneers in our care.

COL. R. L. HARRIMAN, }  
COL. G. H. BURGE, } Auctioneers.

J. L. WITT, Clerk.

N. B.—Granger is 33 miles west of Keokuk, Iowa, 11 miles west of the Santa Fe crossing at Medill, Mo., 35 miles east of the Wabash crossing at Glenwood Junction, Mo. Morning trains from each way arrive in plenty of time for the sale. Evening trains each way after close of sale.

**Imp. Princess Waterloo**—Was a roan, bred by Wm. Duthie, Collynie, Aberdeen, Scotland, and imported by Forbes Bros., Henry, Ill. She belongs to the Waterloo family which were among the best of Mr. Bates' families. Sanders' History says: "He bought Waterloo Cow of Thos. Parkin, Thorp, Durham county. She was a short legged, wide, red cow with the look of the pure Short-Horn." They were distinguished for their thick, mellow flesh and furry coats. Waterloo Cow was one of the five top females sent to be bred to Norfolk (2377), which produced Waterloo 3d, the ancestress of a fine family of cattle still bearing that name.

**Cumberland's Last**—One of the greatest show bulls ever bred in Iowa and a sire of many noted prize winners, among which is Royal Cumberland who was practically undefeated at the fall shows of 1911. He headed a young herd that won eleven first prizes at the eleven greatest live stock shows in the United States. He was sold to the Allen Cattle Co. of Colorado for \$3,000.

**ROYAL CUMBERLAND 2D**—Is a bull that we feel justified in making some strong claims for as a sire and show bull. He is one of the widest ribbed, shortest legged, heaviest built bulls of the breed and as a sire we doubt if any bull his age can show as many calves as uniform in conformation as those now to be seen in the herd.

Imp. Queen Bess 33d—Was a roan, calved in March, 1901; bred by Francis Simmers, Aberdeenshire, Scotland, and imported when a yearling by George Isaac, Bomanton, Ont.

Royal Cumberland 2d—Is a bull that we feel justified in making some strong claims for as a sire and show bull. He is one of the widest ribbed, shortest legged, heaviest built bulls of the breed and as a sire we doubt if any bull his age can show as many calves as uniform in conformation as those now to be seen in the herd.

Victor Archer—Of Mr. Cruickshank's noted Victoria family; got by Imp. Fearless Archer 132062, out of Victoria of Village Park 3d by Baron Rule 123625, tracing to Imp. Victoria 51st.

HOPEFUL CUMBERLAND.—We are surely justified in making some strong claims for this bull. Low, wide, deep and thick—a comer from calfhood up. Weighed 1170 at twelve months old, did almost the entire herd service and weighed 1900 at twenty-four months. Mr. Martin of the Gazette says he “hasn’t seen the 2-year-old that can defeat him if he is carried on properly.” The calves by him are ample proof of his ability to sire calves of the right type. What is a female bred to him worth?

**Cruickshank's Orange Blossoms** are descended from Jessie by Sovereign. This family is from the same foundation as the Queen of Beautys, coming through Queen of Scotland (a daughter of Edith Fairfax by Sir Thomas Fairfax (5796) whose daughter Queen of the South was one of the greatest cows of her day in all Scotland). Mr. Marr's great bull William of Orange was of this noted Orange Blossom family, as was also the prize winner Imp. Orange Blossom 18th, sold in 1876 for \$3,500, and considered almost a model of perfection. She had much to do with bringing the Scotch cattle into the popular favor they now enjoy.

**Royal Cumberland 2d**—Is a bull that we feel justified in making some strong claims for as a sire and show bull. He is one of the widest ribbed, shortest legged, heaviest built bulls of the breed and as a sire we doubt if any bull his age can show as many calves as uniform in conformation as those now to be seen in the herd.

**Cruickshank's Orange Blossoms** are descended from Jessie by Sovereign. This family is from the same foundation as the Queen of Beautys, coming through Queen of Scotland (a daughter of Edith Fairfax by Sir Thomas Fairfax (5796) whose daughter Queen of the South was one of the greatest cows of her day in all Scotland). Mr. Marr's great bull William of Orange was of this noted Orange Blossom family, as was also the prize winner Imp. Orange Blossom 18th, sold in 1876 for \$3,500, and considered almost a model of perfection. She had much to do with bringing the Scotch cattle into the popular favor they now enjoy.

**Royal Cumberland 2d**—Is a bull that we feel justified in making some strong claims for as a sire and show bull. He is one of the widest ribbed, shortest legged, heaviest built bulls of the breed and as a sire we doubt if any bull his age can show as many calves as uniform in conformation as those now to be seen in the herd.

**NOTE.**—This Cruickshank Orange Blossom heifer is as well bred as anything in the sale and just as good. Look this breeding over and see the heifer and you will want her. She is safe in calf to Lot B. An extra good proposition.

Mr. Marr's great bull William of Orange was of this noted Orange Blossom family, as was also the prize winner Imp. In the hands of Mr. Cruickshank they have produced some of the most famous sires ever produced in the herd. At the time of the dispersion of the Cruickshank herd 21st Duchess of Gloster was considered the most famous female in the herd.

**Good Tuck**—Got by Fair Goods 253391 (a worthy son of the champion Choice Goods 186802 that sold at auction for \$5500), out of Countess 10th by Friar Tuck 263837, tracing to Imp. Countess 6th by Topsman 149645.

**Flower Knight**—Is very low set with well sprung ribs, almost faultless quarters, extra well filled and straight lined flank with true top and bottom lines. His breeding is of the very best and he shows quality for which his sire is famous. Got by March Knight 188105, out of Flower Girl 11th by Imp. Royal Prince 201650; Imp. Flower Girl 10th by Landmark 213031.

**Imp. Prince Oderic**—A deep red bull of the noted Princess Royal family: got by Sittyton Pride 126401, out of Princess Royal 39th by William of Orange 95736, one of the best bulls Mr. Cruickshank ever produced. Prince Oderic is the sire of Nebraska's great milch cow Scottish Daybreak which has a milk record of 34 quarts daily, 12½ per cent or one-eighth of which was cream. This milk if sold at 5 cents per quart would have brought \$11.90 per week or \$51.00 per month.

**NOTE**.—Cumberland Archer is right from end to end; head and back almost perfect. A color that couldn't be beat. His dam is one of the best cows on the farm.

**Burwood Royal**—A well bred Scotch bull of great individual merit and a noted sire of thick fleshed show cattle. Got by Royal Sultan 223948, out of Lady Dorothy 11th by Baron Gold Dust 3d 127367, tracing to Imp. Lady Dorothy 2d by the great Field Marshal.

**Cumberland's Last**—One of the greatest show bulls ever bred in Iowa and a sire of many noted prize winners, among which is Royal Cumberland who was practically undefeated at the fall shows of 1911. **Cruickshank's Orange Blossoms** are descended from Jessie by Sovereign. This family is from the same foundation as the Queen of Beautys, coming through Queen of Scotland (a daughter of Edith Fairfax by Sir Thomas Fairfax (5796) whose daughter Queen of the South was one of the greatest cows of her day in all Scotland). Mr. Marr's great bull William of Orange was of this noted Orange Blossom family, as was also the prize winner Imp. Orange Blossom 18th, sold in 1876 for \$3,500, and considered almost a model of perfection. She had much to do with bringing the Scotch cattle into the popular favor they now enjoy.

**Royal Cumberland 2d**—Is one of the best bred Scotch bulls of the present day. His individual merit is in keeping with his rich breeding. Got by the noted Cumberland's Last 229822, out of Royal Princess 2d by Victor Maple 203479, tracing to Imp. Princess Waterloo by Twinkling Star 132057. See his full pedigree Lot A.

**Flower Knight**—Is very low set with well sprung ribs, almost faultless quarters, extra well filled and straight lined flank with true top and bottom lines. His breeding is of the very best and he shows quality for which his sire is famous. Got by March Knight 188105, out of Flower Girl 11th by Imp. Royal Prince 201650; Imp. Flower Girl 10th by Landmark 213031.

NOTE.—Cumberland Stamp, a commingling of the Lavender Viscount, March Knight and Cumberland's Last blood. Possibly one of the best in the entire offering. Watch him.
